WE TWO

Play is a toddler's work, a vehicle for social, emotional, and cognitive development. We Two offers children opportunities to understand their world, interact with others, and explore their natural curiosity. The parents/caregivers provide security and support while the children experience music and movement, story time, crafts, and open-ended play throughout the program. The class is limited and a parent or caregiver must accompany each child.

Instructors:

Miss Stephanie Skadra & Miss Claire Norman

Requirements: Must have completed at least one session of We two or be two-years old before start date. Parent or caregiver participates in each session with the child. \$110 for 4-week session.
9:00 am or 11:00 am classes available.

SUMMER AT THE CML

'Summer Slide' is always a concern as students step away from their classroom routines. This year, for obvious reasons, the learning loss has become profound, particularly for those students with learning differences. Stop the slide and set your child up for success by spending time at our proven Center for Multisensory Learning.

Programs include:

Four Week Intensive Reading Program for Struggling Learners

One-on-One Orton-Gillingham Trained Tutoring

Scholarship Opportunities Available
