LITTLE EXPLORERS

Education is the right of all children, no matter their age. It is vital to offer them a safe setting to promote their potential and foster their own learning. This playgroup will provide such a space. Children will have the opportunity to socially engage with other children of similar age, as well as further develop their cognitive skills. Parents/caregivers will be active partners with their children, engaging with a variety of materials that are offered each week.

Recommended for current one- and two-year-olds. Parent or caregiver participates in each session with the child.

\$90 for 6-week session
9:30-10:30 am

July 13, 20, 27, Aug 3 **WE TWO**

Play is a toddler's work, a vehicle for social, emotional, and cognitive development. We Two offers children opportunities to understand their world, interact with others, and explore their natural curiosity. The parents/caregivers provide security and support while the children experience music and movement, story time, crafts, and playtime throughout the program. The class size is limited, and a parent or caregiver must accompany each child.

Instructors:
Miss Stephanie Skadra & Miss Claire Norman

Recommended for current two- and three-year-olds. Parent or caregiver participates in each session with the child.
*\$60 for 4-week session.
10:00am-11:15am.
